Dear Sir:

REQUEST FOR CERTIFICATE OF CORRECTION

Attached is a Certificate of Correction for correcting an error in the claims of the printed patent.

Applicant submits that the error mentioned above was not by the applicant, but was made during the printing of the patent.

Respectfully submitted,

Keith M. Tackett

Page 1 of 1

APPLICATION NO. : 10/694,618

DATED : February 28, 2006

INVENTOR(S) : David LYMBEROPOULOS

It is certified that error appears in the above-identified patent and that said Letters Patent are hereby corrected as shown below:

Please replace claim 13 to the following:

A mechanical override for a valve actuator, comprising:

an outer housing coupled to the valve actuator, the outer housing having a longitudinal bore therethrough;

an internally threaded drive ring, wherein the drive ring is rotationally locked and axially moveable within the longitudinal bore in response to an automatic operation of the actuator; a backstop for limiting axial movement of the drive ring;

a shaft extending through the longitudinal bore, wherein a thread is located on an external portion of the shaft for rotation through the drive ring to impart axial movement to the drive shaft capable of moving a valve between a first position and a second position; and

a coupling assembly, the coupling assembly comprising:

an intermediate shaft coupled to an operator member of the actuator;

ball bearings positioned between a bottom load surface of the shaft and a top surface of the intermediate shaft; and

a coupler connecting the intermediate shaft to the shaft, wherein the coupler is capable of rotation about the intermediate shaft.

MAILING ADDRESS OF SENDER (Please do not use customer number below):

B. Todd Patterson
